**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to a hot-chamber diecasting process and die-set for use in the diecasting process.

Group II, claim(s) 13-20, drawn to a sprue insert-set.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the sprue insert-set of claims 13-20 lacks technical features of the hot-chamber diecasting process (claims 1-5) and die-set for use in the diecasting process (claims 6-12), as the diecasting process and die-set both include fixed and movable dies, which are lacking in the sprue insert-set; whereas the sprue insert-set includes a tubular sprue body insert, which are lacking in the diecasting process and die-set. As a result of the lack of the same or corresponding special technical features, no single general inventive concept exists. Therefore, restriction is appropriate.
